PROFESSIONAL SUMMARY

I am a results-driven professional with a strong background in software engineering and web development. With over 3 years of experience, I have demonstrated expertise in developing award-winning applications for a diverse clientele. My skills include programming, debugging, wireframing, and a proven track record of architecting clean code. I am well-versed in producing clean code that has no bugs and have received 80%+ experience scores on every web application built. My expertise includes HTML, CSS, Python, and JavaScript, and I am adept at collaborating with UI/UX designers, digital marketing managers, and business analysts to ensure the delivery of functional, visually appealing, and user-friendly websites and web applications.

EDUCATION

Bachelors in Software Engineering | Adventist University of Central Africa   **2018-2022**

EXPERIENCE

Gas Delivery System | Pan African Commodities Traders   **August 2023**

- Designed and implemented a USSD system for a gas delivery service using Laravel, allowing end users to place orders conveniently via their mobile phones.
- Integrated a user-friendly feedback feature, enabling customers to report any defects in delivered cylinders, enhancing the quality assurance process.
- Developed and integrated a secure mobile money payment system, providing customers with a seamless and efficient payment experience for gas delivery services.
- Collaborated with cross-functional teams to ensure the successful implementation and functionality of the USSD system, meeting the specific needs of the gas delivery service.
- Maintained and optimized the USSD system to ensure high performance and reliability, contributing to the overall efficiency of the gas delivery service.

Website Development | NPD Ltd   **Jan 2023**

- Developed a website for NPD using HTML, CSS, and JavaScript to showcase information about the company's road construction services.
- Created different pages to display comprehensive details about the company's offerings, projects, and expertise in road construction.
- Ensured the website's user interface was visually appealing, navigation-friendly, and focused on usability and functionality to provide a delightful user experience.
- Utilized HTML, CSS, and JavaScript to build the front-end of the website, incorporating visual elements, color schemes, and design proportions to fit any screen.
- Integrated and tested the website's sections and content upload, ensuring seamless navigation and visual appeal.

Web Developer & IT Lead | Wouessi Ltd   **July 2020- 2021**

- Designed and developed user-friendly websites and web applications, ensuring seamless integration with backend systems.
- Led and managed a team of web developers, providing guidance and support to improve project performance.
- Implemented agile methodologies and collaboration tools to enhance team productivity and streamline project management.
- Oversaw the full lifecycle of software development, from planning to deployment, ensuring timely delivery and high-quality results.-
- Collaborated with cross-functional teams to gather requirements and deliver solutions that met business goals.
- Optimized web functionalities, improving data retrieval and workflow efficiency.
- Conducted code reviews and provided feedback to improve code quality and maintainability.
- Mentored and trained junior developers, helping them develop their skills and grow professionally.
- Stayed up-to-date with the latest web development technologies and best practices, continuously seeking opportunities to learn and grow.
- Developed and maintained a portfolio showcasing personal and professional web development projects.
